

Carlisle High School to Host College and Career Exposition

Carlisle High School to Host College and Career Exposition

Carlisle's two Rotary Clubs invite the greater Carlisle community to attend Carlisle High School's College and Career Exposition, scheduled to take place in Gene Evans Gymnasium from 6-8p.m. on Tuesday, November 12, 2013.

This event is designed to provide information to students and their parents on possible career paths and combines the efforts of both career speakers and post-secondary school admissions representatives. Over 25 post-secondary schools have agreed to participate as well as experienced career speakers representing a wide range of careers. A financial aid workshop begins at 7:15 p.m. in the McGowan Auditorium.

While the event is focused on providing information to students and their parents from the across the county, it is also open to the public and will be a great source of information about pursuing a new career field. Anyone requesting additional information about the College and Career Exposition should contact the Rotary Club's event coordinator, **Bill Blankmeyer**, at 245-2622 or **Michele Orner**, Career and Technology Center Director, at 240-6800 extension 13814.
