

Army is searching for - Ideas for Innovation

Army is searching for - Ideas for Innovation

Under Secretary of the Army Patrick Murphy is looking for innovative ideas to improve the Army. Army Innovation 2 was developed to give Soldiers and Civilians an easy way to share and collaborate on ideas that will improve the Army.

“AI2 unleashes the creativity, ingenuity and adaptability of the force to improve readiness throughout the Army. I encourage all Soldiers and Civilians to share your ideas for innovation today” said HON Patrick J. Murphy, Under Secretary of the Army

AI2 replaces the Army Suggestion Program and provides a platform for unleashing the creativity of the force to bring ideas to valued outcomes. It is a venue for Army Soldiers and Civilians to share innovative ideas and creative solutions that positively affect the Army through increased cost savings, quality, productivity, cycle time, process improvement and/or morale

Do you have an idea that will?

Contribute to safety and security

Provide technological solutions to today's and tomorrow's problems

Offer competitive advantage on the battlefield

Improve morale and quality of life

Improve effectiveness and efficiency of operations

Save money or time

Army Soldiers and Civilians have always been very innovative. Some great examples include:

The Airfield Manager at Hunter Army Airfield recommended realigning the fuel points at the petroleum, oil and lubricants facility to refuel aircraft saving the Army \$8.7 million.

A sergeant from Fort Lewis recommended the fabrication and use of a holding fixture to secure the jacket of the XM 296.50 caliber machine gun on an OH- 58 Kiowa helicopter, reducing the damage to equipment during maintenance by 95%.

Join the Conversation and go to <https://www.milsuite.mil/ai2> (<https://www.milsuite.mil/ai2>) and follow the 4 steps to share you innovative idea. Through this site you can also collaborate with those that have submitted ideas by voting, discussing and tracking.

You can use the voting buttons on the top of each idea to weigh in on

whether you think it's a good one. Offer feedback or subject matter expertise to help decide whether ideas can be implemented. Keep track of the ideas you're interested in to see whether they're being considered for implementation.

Important: You must have a milSuite account to create an idea, vote, comment or follow ideas. Register at <https://www.milSuite.mil> (<https://www.milsuite.mil/>) and if you are having trouble accessing the AI2 or milSuite sites, contact the help desk at milSuite@mail.mil
