Plan for new traffic pattern to start October 27

Oct. 16, 2008 -- Beginning Monday, October 27, Carlisle Barracks will change traffic patterns due to construction activity along Sumner Road for the future Heritage Heights housing area.

During Phase 1 – scheduled for Oct 27 through Nov 10 -- traffic flow on Sumner Road, from the intersections with Delaney Road and Craig Road, will be one-way. To exit through the Claremont Gate or visit the PX and Commissary, you'll be routed along Wright Avenue and Butler Road. Residents along Wright and Butler roads should be mindful of the possible traffic increase through the neighbor. Detour signs will be placed along this route to guide vehicles.

Phase 2 is scheduled for November 11 through December 14. Sumner Road alongside the PX parking lot will be one-way toward the water tower and back of the commissary. One-way detour signs will also be placed along route.

Phase 2 will not begin until Phase 1 is complete.

"As Carlisle Barracks continues its mission to provide better housing for residents, your understanding and patience will help the garrison build a better post," said Lt. Col. Sergio Dickerson, garrison commander.
