

Carlisle Barracks to test severe weather siren March 21

Barry Shughart, Installation Emergency Manager

Carlisle Barracks to test severe weather siren March 21

On Wednesday, March 21 at 8 p.m., Carlisle Barracks will again test our Severe Weather Alert Warning Siren. Carlisle Barracks is conducting weather exercises to train our staff on weather related procedures to better prepare for a weather emergency and protect our community. Due to the volume of the siren, Carlisle residents may hear the alarm.

While this is only a test, in the event of an actual weather emergency residents should check their preferred weather information and if necessary take shelter. On post you can also call 245-3700 for the latest Carlisle Barracks operations information.

Early warning has proven to save lives and we believe that everyone close to Carlisle Barracks can benefit from the early warning this siren can provide.

The Ashburn Gate "WILL" be closed for no more than one hour during the exercise the Claremont Gate will be closed for no more than 10 minutes. The Ashburn Gate will close at 8 p.m.
