Dunham Army Health Clinic

Plan to move overseas? Plan for an overseas medical screening appointment: open now

March 27, 2015 -- As Dunham U.S. Army Health Clinic (DUSAHC) prepares for the transition season for service members at the U.S Army War College and Carlisle Barracks, we are aware there are many things that must be accomplished before a service member and their family departs. Particularly for Service Members who plan to move overseas, preparation medically is paramount.

The DUSAHC staff is dedicated to providing timely services for physicals and screenings to those Families PCSing overseas. The clinic leadership fully understands that this portion of the transition is a precursor to many other important tasks such as transportation and housing. Please consider a few key points regarding the physicals/screenings in preparation for overseas assignments:

- Dunham U.S. Army Health Clinic is the only site that provides overseas physicals/screenings in the Commonwealth of Pennsylvania for our Service Members -- Army, Navy, Air Force, and Marines.

- The clinic currently schedules these physicals every Tuesday afternoon.

- During the month of April, the clinic dedicates two afternoons per week (Tuesday and Wednesday) for overseas physicals/screenings.

** To increase the availability of overseas screening physicals for Families PCSing this summer, the clinic recently made additional appointments available in the month of April.**

- For emergent/urgent appointments the clinic will do everything possible to accommodate Service Members who have a report date overseas in the next 30 days.

Please feel free to call the DUSAHC at 245-3400 to schedule an overseas screening appointment. We look forward to continuing to serve the needs of our military Families here at Carlisle Barracks.
