

Installation of new outdoor digital signs begins

Installation of new outdoor digital signs begins

Workers install panels for the new digital sign along Ashburn Drive at Carlisle Barracks Oct. 27. The signs, like those found at many other military installations, will welcome visitors and provide safety messages and information of community-wide interest.

Two new outdoor digital signs are scheduled to start operating Thursday, Oct. 29 at both entrances to post. Workers will be installing a third digital sign at Reynolds movie theater to update by-passers on movies and other information. Organizations can request outdoor digital sign displays with a DA 3903 [on CBNet] graphics work order.
