

Spring means time for pet safety

James Chesser, Carlisle Barracks Police Chief

Spring means time for pet safety

March 30, 2010 -- It is that time a year now, the snow is gone the dogs want to stretch their legs and the kids too, so here are some reminders to keep us all safe.

Post and Housing Rules prohibits dogs from being chained outdoors and left unattended at any time and pets are prohibited from playground areas.

All animal bites cases must be reported immediately to the Carlisle Barracks Police Desk (717-245-4115) and the animal must be brought to the Vet Clinic at the earliest practicable time by the next normal duty day. Animals may be quarantined for a period of 10 days and home quarantine may be used by the post veterinarians at their discretion.

If you need further information you may refer to CBks Regulation No. 40-1, 8 December 2003 and Balfour Beatty Family Housing, Mar 2008.

As always the Police Department is available for question:

Chief of Police-245-4754; Operations- 245-4909 / 3439.
