

APC international fellows engage in strategic thinking during wargaming exercise

By Tony Verenna 22 June 2022

The Department of Strategic Wargaming, Center for Strategic Leadership, hosted 40 International Fellows for an International Strategic Crisis Negotiation Exercise in Collins Hall.

The Department of Strategic Wargaming, Center for Strategic Leadership, hosted 40 International Fellows for an International Strategic Crisis Negotiation Exercise in Collins Hall, June 10.

The International Fellows, who took part, are incoming class of 2023 students and DSW facilitated an experiential wargame during the IF Academic Preparatory Course.

The ISCNE is an experiential learning event where participants role-play members of diplomatic teams negotiating a crisis. The International Fellows, from 38 countries, represented six teams debating issues happening in the Arctic. The event provided participants a chance to engage in strategic-level dialog and improve on their English-speaking

skills.

Each attendee was given multiple opportunities to speak with their teammates and to negotiate with their counterparts. The interactions provided a unique way to practice much needed skills in expressing ideas in English and working together. DSW also, introduced the IF APC to the many wargames that are available for students throughout their academic year.
