

Local Businesses come to USAWC to welcome new students at the Welcome Expo

By Public Affairs Staff 10 August 2022

New Army War College students, their families and other newcomers to Carlisle Barracks were able to learn more about their new community during the Welcome Expo, Aug. 10.

The Welcome Expo shows what the local Carlisle community has to offer to incoming Army War College students and their families. Likewise, the vendors get to meet families who will play an integral role in the community over the next year. Over 100 local businesses and vendors came to Carlisle Barracks for the event, Aug. 10.

The day-long event brought together on-post service and support organizations together with Carlisle community businesses, sports clubs, service organizations and more. The annual event occurred during the Zero Week timeframe for new USAWC students so they can join their families. The expo is among the dozens of welcome events held by the Garrison and the USAWC before the start of the academic year.
